CHAPTER - 1

THE HEAT OF THE DEEP BLUE FLAME IN OUR SOUL

(Artist: Edward Robert Hughes Date: 1851-1914)

Poem on Cosmic Dance

The Whole Cosmos Has Been Transfixed By the Glitter of the Cosmic Dance! O Goddess of the Celestials!

(Artist: Edward Burne-Jones Date: 1833-1898)

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

To the higher forces I am ready to offer myself.

Before the heavens I am ready to completely surrender myself.

Let my inner flame unite with your universal fire.

To merge into the radiance of your cosmic light is my soul's desire.

All my effort is to completely surrender.

My ears have heard your divine thunder.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

Your divine warmth and light every creature shall seek.

With the radiance of a zillion stars shall shine every soul that is meek.

The culminating experience of your beatitude every soul shall see.

In a world of your perfect love my soul shall be.

With the right resolve and tenacity I shall reach your bright world.

To the inward state I shall turn from the outer world.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

With intense concentration I can awaken my soul.

The realization of your divine beatitude is my soul's goal.

Your sacred flame has been ignited in the root centre of my being.

Self-realization I shall gain through the dedicated effort of my being.

The art of relinquishing and reconciliation my soul shall learn.

In the heat of your radiance my soul shall burn.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

In sheer abandonment my soul seeks its joy.
The wonders of your mystic world my soul shall enjoy.
The benefit of yielding and acquiescence to the divine my soul has learnt.
In the radiance of a zillion stars my soul has burnt.
Before the wonders of the cosmos completely I surrender.
My soul is bewildered by your cosmic light and thunder.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

By your deeper hidden spiritual current every creature is sustained.
My power of consciousness by your grace is maintained.
Synergize all my energies with your higher power.
Let my soul bathe in your cosmic shower.
To your universal will every creature shall surrender.
In sheer abandonment I expose my soul to the cosmic thunder.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

All my desire, motivation and aspiration I surrender at your feet.
In the radiance of your cosmic light every soul shall meet.
It is your divine energy that transforms my soul.
To gain stillness and stability is my soul's goal.
Through austerities and deprivation I cannot reach your abode.
Let your light in my dark world explode.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

Self-mortification shall not redeem my soul.
To regain your divine energy is my soul's goal.
With your blessings you endow every seeker.
You eclipse the mundane to emancipate every seeker.
It is your transcendental grace that shall shine forth through every soul.
Your nurturing presence in the cavern of my heart shall make me whole.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

Into stillness and stability my stormy world you shall transform.

By the stillness of my breath my soul shall reform.
To the highest ancient peaks my soul shall ascend.
In the depth of my being your light shall descend.
The dark blue mountain shines with your grace.
Your magical charm shall show on my face.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

(Artist: William-Adolphe Bouguereau Date: 1865)

Your grace shall make me unyielding and steadfast within.

Your mercy shall relieve me of all the darkness and sin.

Within me let your grace work its magic.

Let me not be subjugated and weakened by the world that is tragic.

From the mountain cloud of your being I have seen your divine lightening.

This world of darkness is no more frightening.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

Your cosmic fire in every soul shall be kindled.

In the darkness of my cosmos your light shall be mingled.

To your divine consciousness silently I surrender.

In you I shall take refuge from the cosmic thunder.

Your deep blue flame in every creature has been kindled.

Before your light all my darkness has surrendered.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

You are the divine matrix into which I can offer all my darkness.

You are the fire that ignites the world of brightness.

The residual traces of the mind lying in my sub-consciousness only you can erase.

The divine cosmic shine only you can give to my mortal face.

The heat of your deep blue flame my soul shall bear.

The cover of darkness my soul shall tear.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

Intense love I have developed for your esoteric world.
My heart has been won by your cosmic world.
Only your grace can bring about the union that I desire.
With the advent of your light the darkness in my soul shall expire.
Let me experience the deeper nuances of your mystic world.
Full gamut of life's experiences let me gain in this mortal world.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

It is your grace and intense love that personifies the ideal of every soul.
To win your sacred heart is my soul's goal.
Sustained by your will power my soul shall gain its success.
All my residual darkness your light shall address.
The inner flowering of my soul the whole cosmos has witnessed.
Like an embryo in its womb my soul you have fed.

The whole cosmos has been transfixed by the glitter of the cosmic dance! O goddess of the celestials!

Poem on Deep Blue Flame

The Heat of Your Deep Blue Flame My Soul Shall Absorb! O Mother of the Radiant Flames!

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

All the sacred potentials of my soul shall finally emerge.
In the flood of your grace I shall submerge.
From the deeper recesses of my being your light shall emerge.
Into the depth of your being my soul shall merge.

With the help of your grace I shall converse and nurture all my energy.
It is your mercy that shall provide me the divine synergy.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

(Artist: John Constable Date: 1776-1837)

Turning my energy inwards I shall explore my inner world.

The various planes of intensity I shall explore of your cosmic world.

The essence of the creative process my soul has understood.

By your grace I shall be given the cosmic food.

Your light has silently invoked my spiritual passion.

My soul can no more work in isolation.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

For long in isolation I have struggled with myself.

The rigors of darkness I have suffered myself.

Your primal forces have created the cosmic heat in my soul.

To witness the higher realities beyond the known world is my goal.

Let your grace unfold the canvas of my life.

Let your cosmic heat remove all my darkness and strife.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

The energies of my body and mind let me hold in perfect balance.

Let the inner vessel of my soul hold your divine energy in perfect balance.

Develop in me the inner character that can sustain your divine energy.

Let your higher energies and insights provide me the required synergy.

In your deeper realities let me immerse my soul.

Let patience, prayer and passion lead me to my goal.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

From my senses and thoughts let me withdraw into a determined equipoise.

From my outer life let me cut off all the noise.

Let me remain strong and resolute and maintain firmness within.

My every breath is an experience of deep realization within.

Only you can create the field to realize my spiritual aspiration.

Only you can make sure that the darkness does not produce any frustration.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

To the power of your divine word every soul shall connect.

With the help of your grace my soul shall resurrect.

Your mystic world is the object of my focus.

To converse all the energy, passion and devotion within me is my focus.

Your grace can heat up and illuminate my mind and soul.

The purification and transformation of my being is my goal.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

Let your cosmic heat mature, ripen and develop my soul.

To create a space for stillness is my goal.

Your inner magic of transformation every soul has felt.

With your cosmic heat every soul shall melt.

With the help of your grace I shall turn all my energies within.

Your mercy shall kindle the fire within.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

Above physical austerity and self-mortification my soul shall rise.

For harbouring the darkness I have paid the price.

All the stereotypes of this mortal world I shall discard.

Voluntary suffering is no more on my card.

Silence and stillness my soul shall learn.

Equanimity of my being I shall earn.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

The fruit of resilience the heavens shall give to my soul.

The deep forces from your cosmic world shall make me whole.

Within a period of gestation the heavens shall ripen my soul.
Through regular practice and discipline I can define my goal.
The process of internalization shall stabilize my soul.
Your light shall end all the darkness and strife.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

(Artist: William-Adolphe Bouguereau Date: 1865)

Through your love and devotion my heart seeks for its exaltation.
Only you can brighten the sacred flame of my heart's inner aspiration.
Solitude and serenity in my heart shall naturally flow.
The sacred flame in my heart shall brightly glow.
Your grace shall give me the time, patience and the ability to wait.
My soul shall finally bite your divine bait.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

The string of your deep forces I have felt in my soul.
To ready myself within is my goal.
The visible results of your grace will manifest in their own time.
My soul shall ripen for your world sublime.
New potential for clarity and awareness I shall develop.
Your divine energy my soul shall envelop.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

All your cosmic energy in my soul shall expand.
Clarity and awareness my soul shall demand.
All your cosmic energy I shall draw within.
Your intense internal heat shall destroy all my darkness and sin.
All my life's energy within me I shall embrace.
All my pain and suffering the heavens shall erase.

The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

All my pain and suffering will finally fade away.
To your supreme dwelling I shall find my way.
Cooling and debilitating shall be the destruction of my energy.
Your cosmic heat shall provide me the synergy.
Your grace shall integrate all the universal forces.
My soul will finally be aware of your divine resources.
The heat of your deep blue flame my soul shall absorb! O mother of the radiant flames!

Shinto Tomoe Symbol: *Not strictly a fire symbol, but included here for its lessons of balance. The word tomoe means "turning" or "circle," and the symbol is also called a fire wheel. The Shinto/Buddhist symbol shown here is reminiscent of the yin yang symbol, and holds many of the same symbolic/energetic traits. This symbol is occasionally shown with three flames, each symbolizing humanity, heaven and earth - the three foundations of Shinto philosophy. Poem on Cosmic Heat

With Your Cosmic Heat Every Soul Shall Melt! O Mother of Immense Strength!

(Artist: James Tissot Date: 1836-1902)

With your cosmic heat every soul shall melt! O mother of immense strength!

Of my real nature let my soul be aware.

Connecting to my higher self let me prepare.

My old emotional wounds only your grace can heal.

All my negative thoughts and emotional disturbances only you can reveal.

By calming the mind and senses let me maintain an inner silence.

Let me purify my heart of violence.

With your cosmic heat every soul shall melt! O mother of immense strength!

The real purpose in my life is to create an inner contentment.
